came back 500 strong and cut off a company of the First Nebnasks volunteers. This morning General Hale sent out three companies of the Nebraska resiment and two companies of the Second Oregon to listodge them. The enemy who were holding a strong position among the rocks, fired excellent volleys at the advancing Americans, but the latter, by a flank movement, drove the Filipines over the hills.

No sooner was this fight well underway than the insurgenis to the south of the waterworks, knowing that the forces there had been weakened to sending froors to Mariquina, attacked the waterworks in the rear. Their object was to cut off the pamping station, but they did not succeed.

Their fire was heavy and our small loss was due solely to the bad markemanship of the Filipinos. The enemy's dead numbered twenty. Returns now in show five Americans wounded.

The insurgents are placing guns in position at various points.

The opinion of all the prominent men Manila is that the military force of the insurgent anarchy must be broken before a stable government can be established in the islands.

Leona Sunk to Extinguish Fire In the Cargo.

New York, March 7.—The Mallory steamer Leona, which sailed for Galveston with a large passenger list and a cargo consisting principally of sugar and coffee, lies beached on the Jersey flat near Ellis island today. There the passengers were disembarked and efforts made to extinguish the fire, which was among the sugar. No impression could be made upon the flames, and, to save the docks and nearby shipping, the steamer was sent to the Jersey flats, where she was sunk in twenty feet of water The damage to the steamer is estimated at \$10,000, but no accurate estimate of the loss on the cargo can be made at present.
